# About WON

---

The former ESNCH – European Society of Neurosonology and Cerebral Hemodynamics, now known as the World Organization of Neurosonology (WON), is an international scientific society dedicated to advancing the field of neurosonology — the study of the brain's blood vessels and blood flow using ultrasound. Originally founded in the late 1990s under the initiative of Professor David Russell, the society began as a European platform for researchers and clinicians interested in cerebral hemodynamics. Over time, its influence and membership expanded beyond Europe, evolving into a truly global organization under the name WON.

## WON Mission

---

The society's mission is to promote research, education, and standardization in neurosonology and related areas of cerebral hemodynamics. It serves as a forum where experts, clinicians, and researchers can exchange knowledge, collaborate on studies, and develop international guidelines. A key focus of WON is improving the quality and accessibility of neurosonology training worldwide. Through its educational programs, webinars, workshops, and certification processes, the organization supports both established professionals and young researchers in developing their skills and advancing their careers.

## WON Conferences

---

WON organizes international conferences and teaching courses that bring together specialists from around the world to share the latest scientific developments, clinical techniques, and innovations in neurovascular imaging. The society also operates several working groups that focus on specific areas of neurosonology, producing scientific publications, recommendations, and collaborative research projects. These working groups are an essential part of the society's mission to ensure high standards of practice and to foster a spirit of scientific cooperation across disciplines and borders.

## WON Membership

---

Membership in the organization offers access to an international community of professionals, educational materials, certification opportunities, and reduced registration fees for scientific events. The structure of WON includes an executive committee, advisory councils such as the Council of Nations, and multiple expert committees that guide its educational and scientific initiatives.

# Why sponsor WON

Sponsoring **WON 2026** offers a valuable opportunity for companies, institutions, and organizations to align themselves with a leading international community in neurovascular science and technology.

By supporting WON, sponsors gain direct access to a highly specialized audience of neurologists, stroke experts, neuroscientists, ultrasonographers, and researchers who are at the forefront of cerebral ultrasound innovation. This visibility places sponsors in front of decisionmakers and opinion leaders who influence diagnostic, therapeutic, and technological choices in hospitals, clinics, and research centers across the world.

The society's annual conferences, international teaching courses, and webinars attract participants from dozens of countries, offering sponsors global exposure within a focused scientific network. Sponsorship provides opportunities for brand visibility through exhibition spaces, digital presence on event and society websites, logo placement in official communications, and inclusion in educational or scientific materials. For companies developing medical devices, imaging systems, software, or pharmaceuticals related to neurovascular care, the platform is particularly relevant for showcasing innovations, demonstrating products, and gathering feedback from toptier specialists.

Beyond marketing benefits, supporting WON demonstrates a commitment to scientific progress, education, and improved patient care. Sponsorship helps fund training programs, young investigator awards, research collaborations, and the development of standardized neurosonology practices worldwide. It is both a promotional and a philanthropic investment — contributing to the advancement of clinical excellence and innovation in neuroimaging and cerebrovascular health.

## Application for Sponsorship

Applications for sponsorship must be submitted in writing and sent to  
**won2026\_sponsorship@convin.gr**

Before applying, please ensure you have carefully read the Terms and Conditions applicable to sponsorship with WON.

# WON 2026 Conference Guidelines

**In order to improve the organizing aspects of the Conference and ensure the highest quality standards, the Professional Congress Organizer requires that the following guidelines are respected:**

- ✓ The technical services provided for all sessions of the WON 2026 Conference will be managed by the official AV company; any other potential supplier proposed by the sponsoring companies will be taken into account only if the official AV company is unable to meet the same requirements.
- ✓ Communication agencies called to manage the exhibition or any other aspect of the Conference on behalf of the sponsoring company, are requested to submit the draft project to the Professional Congress Organizer for final approval.
- ✓ The distribution of corporate promotional material is forbidden outside of the relevant area of the exhibition stand.
- ✓ All food & beverage services provided during the Conference, in any area of the Venue, can be delivered only by the official supplier of the venue. Requests should always be made directly to the Professional Congress Organizer.
- ✓ All suppliers (of goods and services) must be provided for and approved by the Professional Congress Organizer.
- ✓ Use of the Conference and/or Societies' logo is always, and in all cases subject to written approval by the Professional Congress Organizer (prior authorization of the ESNCH-WON).

*All sponsoring companies are kindly requested to abide by the Guidelines listed above.*

## PHISHING AWARENESS
